

## FLUSH MOUNT WEDDING ALBUMS

Prices & Design Options

## Flush Mount Wedding Albums

A few months after receiving the digital files from your wedding, after you've had time to look through all of your photos and reflect on your wedding day, you're welcome to reach out to me anytime to discuss putting together your wedding album.

The first step is to decide on your favorite photos to include in the album. Think about what memories mean the most to you, what details & moments you want to remember, and what family members and friends you want to be pictured in your album. If you already know exactly what photos you'd like in your album, you can make a list of the filenames & send it over to me. If you're a bit indecisive or want my help choosing the photos, we can schedule a meeting and I'd be happy to give my input. Any photos selected for the album may also receive extra editing or retouching for free - just let me know what you'd like tweaked!

After determining what photos you'd like in the album, we'll discuss design and layout options for your custom flush mount album. The albums are available in various rectangular and square sizes and come in three different cover options: Image Wrap Hardcover, Leatherette, and Genuine Leather. The flush mount pages open completely flat, without any bulging gutters, and the rigid pages won't curl or wrinkle. The standard page thickness is 0.8mm and extra thick pages are 1.3mm. The cover can be customized by adding text or a cameo window to showcase your favorite photo.

Parent albums (exact duplicate albums in a smaller size) are available with any album and make great gifts for parents or relatives. The parent albums will contain the exact same photo layouts & aspect ratio as the original album. Parent album pages are .8mm thick. Gilding, cameo windows, and painted text are not available on parent albums. If you'd like duplicate copies of the exact same album (in the same size as the original), each duplicate album is **\$200** off.

A **\$300** deposit is due at the start of the album design process. The remaining balance is due when the final proof is approved.

After the album design is finished (usually around 3 weeks), I'll send you a digital proof to look over. If you have any edits or changes, I'll send the updated design for final approval, then I'll submit the album to be printed! Albums usually arrive within 3-4 weeks. Shipping costs are included in the below prices. **8.375%** NY Sales Tax will be added to the final cost.

## IMAGE WRAP HARDCOVER

Chose your favorite photograph as the cover! The photo will be printed edge-to-edge on a rich, textured, durable surface.

Text can be added to the spine or cover, if you wish. Gilding is available on the edge of the pages in gold or silver for **\$15**.
